Secure - IT Asset Disposition Services, founded by Mario Jurcic, provides small to mid-size corporations, organizations and government entities with a solution to IT disposal needs. Services are offered throughout Northeast Ohio and include secure and compliant information destruction, electronics recycling and asset remarketing and media storage. The services are for those needing to recycle or dispose of used electronic equipment in a way that does not risk proprietary data. This business is a follow-up to Mr. Jurcic's first venture, E-Scrap Ohio. Types of equipment processed include cell phones, hard drives, monitors, computers and laptops.
